Dear Partners and Members,

Thank you for joining the National Safety Council in celebrating 100 Years of Safety. This is truly a momentous occasion – one that is worthy of celebrating.

Since the first Cooperative Safety Congress met in 1912, safety has come a very long way. It has become a priority for leading corporations, nonprofit organizations and governments across the country. Because of our collective efforts, employees and their families are more aware of safety at work, on the road and in homes and communities.

None of this would have been possible without you. Through your continued efforts to increase safety awareness and improve safety practices within your own organization, you have played a vital role in this country's safety movement. Thanks to you and your efforts, we have helped to save 6 million lives and make communities across the country safer.

Our work isn't done yet. I hope that you will join me in taking this opportunity to not only celebrate safety's progress but to promote driver awareness and further our collective impact. To help you in this effort, we have created the enclosed toolkit. The documents within are meant to be a resource for you and your organization to communicate about the 100 Years of Safety, and about your organization's own safety initiatives and progress. Please feel free to edit and adapt these tools to meet the needs of your organization. If you have any questions, please contact media@nsc.org

Thank you again for your ongoing support and commitment to safety.

Janet Froestcher
President and CEO
National Safety Council
