

Wear “Jeans for the Journey” and further the cause of safety! Casual Day never counted so much.

At our company, safety is important, so we’re partnering with the National Safety Council to raise safety awareness. To make our statement, you get to “go casual.”

For every \$5 donation, you can wear jeans or casual clothes to work for a day. Together we can help the National Safety Council provide even more education and training to help save lives and prevent injuries.

Help further the cause of safety in the workplace and beyond. Our efforts will be recognized nationally during National Safety Month in June.
