

# Coaching the Emergency Vehicle Operator 3: AMBULANCE

NSC Driver Safety Training

## Specialty training for emergency medical service vehicle

### Course description

Coaching the Emergency Vehicle Operator (CEVO) 3: AMBULANCE promotes critical thinking during high-pressure driving situations and offers defensive driving strategies to avoid collisions. The course trains emergency vehicle drivers how to navigate through traffic safely in both emergency and non-emergency situations and features videos with ambulance driver simulations followed by group discussions.

CEUs may be available for successful completion of this course. Please contact your State Division of Health/EMS for more information.

### What participants will learn

Throughout the 6-hour course, participants will learn defensive driving techniques to maneuver safely through traffic under severe time constraints and stress. Topics include handling blind spots, cushion of safety, navigating through intersections, proper ways to pass and change lanes, backing and parking safely, avoiding tailgaters and improving driver reaction time.
