

DDC Professional Truck Driver Online

NSC Driver Safety Training

Convenient, self-paced driver safety training to protect your workforce and company's bottom line

Course description

When truck drivers take unnecessary risks, they put more than their lives in jeopardy. Consider other motorists and pedestrians, and the monumental costs of medical injuries, property damage and repair costs, compensation claims and your company's reputation.

DDC Professional Truck Driver (PTD) Online addresses the most common causes of truck-related incidents and provides truck drivers with the knowledge and defensive driving strategies required to avoid collisions and traffic violations. With DDC PTD Online, an organization can train any size group, even at remote locations. **This interactive 4-hour* course** is a cost-effective solution for a new employees, refresher and post-incident training. By proactively implementing this professional truck driver program, you can help your organization reduce insurance premiums, repair bills and workers' compensation claims.

What participants will learn

Throughout the course, participants will learn how to recognize both potential and immediate hazards and how to avoid collisions in a variety of driving conditions and environments. Students will recognize why choosing safe, responsible and lawful driving behaviors and habits make personal and financial sense. Students will be presented with clear direction and simple navigation to foster retention and learning.

The course delivers the necessary content to keep drivers safe while meeting the needs of an organization's driver safety goals. Participants have the flexibility to work at their own pace and according to their own schedule anywhere there is a computer with internet access.

This course presents real-life driving situations and hazards and motivates drivers to change their behind-the-wheel behaviors and attitudes. Through computer-generated animation, interactive instruction and testing participants will thoroughly learn best practices to protect themselves and the company.

Course features

- Animation, narration and interactive skill testing to engage users increasing learning and retention
- Bookmark tool allowing students to leave and return at the point where they exited the course
- Ability to review any portion of the program before taking the test
- Immediate grading of test and certificate issuance
- Easy-to-follow navigation increasing the participant's ability to flow through the course with ease and consistency.
