

From NSC President and CEO Deborah A.P. Hersman

Did you know that every 7 seconds someone is injured, and every 15 minutes someone is killed in a car crash? We may not think of them as workplace hazards, but many of the crashes occur as drivers commute or are driving for work. In fact, motor vehicle crashes are the number one cause of workplace death. Fortunately, we know workplace policies and employer engagement can help reduce these crashes.

The NSC has created a Safe Driving Kit for employers to build a safer driving workforce through policies and education. Help us eliminate preventable deaths at work and on the road. Get the Safe Driving Kit today to keep your employees safe.

Sincerely,

A handwritten signature in black ink, appearing to read "DAPH", with a long, sweeping horizontal line extending to the right.

Deborah A.P. Hersman
