

New Instructor Designation Codes

All current instructors and instructor trainers are required to purchase a new instructor resource kit for the programs they are authorized to teach. All training centers and instructors must convert to the new program by December 31, 2016 in order to be in compliance with your current training center/instructor agreement.

To accurately track the transition and purchase of new instructor kits we have created new Instructor Designation Codes. When you have purchased a new Instructor Resource Kit your record will be updated with the new code and when your card expires, you will receive a new Instructor Card with the new code in the mail .
