Adult/Child/Infant CPR & First Aid Training Course

Certified instructors are required to hold either an Instructor Certification from the American Red Cross, American Heart Association, American Safety & Health Institute or the National Safety Council. They must be a currently licensed medical professional, such as RN, LVN, EMT or MD.

ProCPR

Blended course for two different certificates, ProCPR and ProFirst Aid is offered. It includes Adult/Child/Infant CPR/AED and is for Healthcare Providers. The ProFirst Aid certification includes Adult/Child/Infant CPR/AED and First Aid for child care providers or lay rescuers. Training consists of 2 steps in order to receive a certificate: Step 1 is training and testing online and step 2 is the hands-on-skill evaluation with a certified instructor.

SIDS Training Requirements

SIDS training requirements for family child care providers took place July 1, 2004 for new applicants and January 1, 2005 for existing providers caring for children under the age of two. In order to clarify the requirements for training the following information is provided.

- **Resources for Training:**
All SIDS training is to be based on information available from the American Academy of Pediatrics, “Reducing the Risk of SIDS in Child Care” training curriculum. The training materials and information for presentation are available free for download at www.healthychildcare.org. All training must include, at a minimum, information on:
 - Definition and background information on SIDS
 - Sleeping positions
 - Supervision practices
 - Sleeping environment

- **Approved Training Sources:**
 - Colleges and universities
 - Health Departments
 - Resource Centers
 - Infants and Toddlers Program
 - Abilities Network
 - Trainers approved by OCC – Office of Credentialing
 - Web-sites:
 - www.educarer.org SIDS Course 1 hr, \$10.00 for certificate (required)
 - www.carecourses.com – Infant Safety, 2 hrs for .2CEU’s, \$10.00
