Bloodborne and Airborne Pathogens

INTERNATIONAL

Instructor Resource Kit
Product #73305-0000

Commonly found bloodborne and airborne pathogens include hepatitis B virus (HBV), hepatitis C virus (HCV), human immunodeficiency virus (HIV) and tuberculosis (TB). If there's any chance you encounter blood or other potentially infectious materials, you face significant health risks. The National Safety Council® Bloodborne and Airborne Pathogens course helps reduce those risks by focusing on how to protect your employees from blood and airborne pathogens and what to do if an exposure occurs.

We have revised our course to include additional statistics and information about HBV, HCV, HIV, and updated information on the Needle Stick Safety and Prevention Act, plus expanded the section on recordkeeping and exposure control plans. There's also updated and expanded content on airborne pathogens, additional statistics on tuberculosis, more details on TB testing and added content on influenza.

If you want to take a Bloodborne and Airborne Pathogens course, the National Safety Council is the smart choice. Our course puts the most up-to-date information in the context of the OSHA Bloodborne Pathogens Standard, so you know exactly what's needed for compliance.

This 2-hour course covers

- Introduction to bloodborne pathogens
- Bloodborne pathogens, including hepatitis viruses and HIV
- Preventing infection from bloodborne pathogens
- Airborne pathogens, including tuberculosis
- Influenza and potential influenza pandemic

If you are interested in teaching Bloodborne and Airborne Pathogens, the National Safety Council makes it easy. You can purchase the Instructor Resource Kit and start teaching right away. The kit includes an Instructor Manual, an Instructor CD with PowerPoint®, a new DVD and a student workbook. You'll also get a completion card, exclusive product pricing with no annual fees and much more!

Bloodborne and Airborne Pathogens Student Workbook

Each participant receives a 64-page full-color student workbook that includes course completion cards.
