## Hendersonville Carrier Inducted Into The Club

*A/District Manager Angela Curtis congratulates City Carrier Daniel Sabo on his "induction" into the Million Mile Club.*

Hendersonville City Carrier Daniel Sabo says he has faced quite a few "distractions" while carrying mail for more than 30 years. Sabo concedes it has been worth every one to earn the coveted Million Mile Award from the National Safety Council.

Sabo, who received the district's 12<sup>th</sup> Million Mile Award this year, has logged thirty years and one million miles without a preventable accident. Acting District Manager Angela Curtis presented Sabo with a plaque, safe driving pin and a certificate for his achievement. Curtis says, "It's such an honor to be able to thank you for being safe for so many years." A former letter carrier herself, Curtis adds, "I know firsthand the hazards you face day in and day out. To return safely for 30 years is a true accomplishment." Postmaster Tom Harrison agrees that Sabo is a model carrier.

Sabo, whose wife Leslie is a mail processing clerk in the same office, says he feels grateful for having a safe career. "I've had an eventful career, including being chased by a turkey. It's just a blessing to make it this far without an accident."

The office celebrated with a cake featuring a photo of Sabo from his early years. Human Resources Manager David Mills and A/Senior MPOO Craig Kinlaw participated in the ceremony as well.
