

NATIONAL SAFETY COUNCIL GOVERNMENT & PUBLIC SECTOR DIVISION PUBLIC EYE ON SAFETY ON-LINE LIBRARY

OUR VISION

“To be recognized as the leading safety resource for government and public sector organizations.”

OUR MISSION

“Facilitating the identification, evaluation and provision of safety resources and best practices through the collaboration of Division members.”

WHO WE ARE

With over 100 members and growing, the NSC Government and Public Sector Division is a catalyst for promoting an effective safety culture aimed at reducing accidents, injuries and preventable deaths in federal, state and local governments and the public sector.

The Division provides a forum for collaboration, communication, knowledge exchange and support among safety and health professions working in government and public sector. The Division also supports training, education and development of government and public sector safety and health professionals.

The Division’s Public Eye on Safety Library

The Division’s “Public Eye on Safety” on-line library is a collaborative resource for public sector administrators who are responsible for oversight, as well as the day to day management, of the safety and health of the public, public sector employees, facilities, operations or services. It provides an opportunity for our members to share their broad base of knowledge on the diverse safety and health issues that public sector management should be aware of and practical guidelines on how to develop effective policies and programs to control those hazards and enhance safety and health within their organizations.
