

## OUR DRIVING CONCERN

TEXAS EMPLOYER TRAFFIC SAFETY PROGRAM

A PROGRAM OF THE NATIONAL SAFETY COUNCIL

**August 2014**

### ***Sign-up Now!***

Employers, host a **FREE "Lunch & Learn"** in your workplace.

Employees will hear from driving experts about safe driving and how as parents, they can protect their new driver by becoming actively involved in their experiences on the road.

**For more information,** contact [Kathy Bernstein](#)

**How's your company doing?**

[Share your traffic safety activity with us!](#)

### **Questions?**

## How do you do it?

Tell us what you have done to help make your employees safer on the road!

Recently, **Malin Integrated Handling Solutions and Design** posted the seat belt [requirements for passengers](#) under Texas State Law. The **Brownsville ISD Police Department** held a training for

their employees on various driving topics.

Your feedback is critical to helping us provide the most valuable resources for your organization.

## Food for life: Free Lunch & Learn Opportunity

*What do you think is the greatest risk teens face? Gang violence, drug use, pregnancy, bullying, suicide? Think again.*

**Car crashes are the #1 killer of teens in America.** But it doesn't have to be. Unfortunately, most parents don't understand the risks associated with new drivers and if they do they aren't sure what can be done about it.

As an employer, you can host a **FREE "Lunch & Learn"** in your workplace. Employees will hear from driving experts about safe driving and how as parents, they can protect their new driver by becoming actively involved in their experiences on the road.

Do you have any friends or colleagues who would benefit from Texas traffic safety tips? Forward this newsletter to them and encourage them to [sign up online!](#)

Crashes involving an employee's family member impact your company's bottom line, the employee and their co-workers. We're currently serving the following areas: **Dallas/Ft. Worth/Irvine, El Paso, San Antonio, Lubbock, Hidalgo, Houston and Austin.**

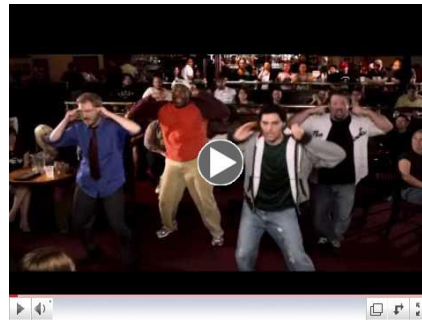

Don't see your location? Contact [Kathy Bernstein](#) for more information.

### Safety Talk: *Bad Cheerleader!*

Safety is no laughing matter, but that doesn't mean you can't inject some humor into your next safety talk.

Impaired driving is a critical issue on Texas roadways. While the toll of a conviction will play out for years to come and can add up to \$20,000 before everything is over, the cost of life far outweighs this bill.

Share this video with your employees and express the dangers of driving impaired.

### Football season: Start planning now!

Many Texans are gearing up for that special time of year - *football season!* Along with tailgating, good times and great memories, impaired driving is also a primary concern this season.

Help your co-workers get ready to celebrate the season safely with a host of awesome, free materials! Plan your company's [campaign here](#).

### Technology problem solved - *with technology*

Technology raised a distracted driving problem. Now, technology is being utilized as the solution.

Influencing people to drive without distractions can be a challenge. However, new technologies are looking to change the environment *instead of* the ongoing behavior, and can effectively prevent injury.
