

## NSC Navigator Safety Training Management

### Stay up-to-date on employee safety training with NSC Navigator

Staying on top of employee safety training can be frustrating and tedious. Paper files get lost and spreadsheets are ignored until it's too late. **NSC Navigator** lets you painlessly move your training records into an on-demand database that you can access anytime, anywhere from a computer or mobile device. No more guessing—**NSC Navigator** sends you an alert any time an employee's certification is about to expire or if they miss a training session.

#### **NSC Navigator Safety Training Management can help you:**

- Schedule employee training
- Save, print and track rosters
- Print and track certificates
- Track trade licenses
- Manage training budget
- Develop a 30/60/90 day list
- Create an OSHA compliance graph
- View and print a job training report
- Maintain an employee contact list
- Manage course content
- Manage MSDS and policy sheets

**NSC Navigator Safety Training Management** along with our **Incident Management** and **Inspection Management** offerings are designed to allow your organization to begin the Journey to Safety Excellence in an efficient and cost effective manner. The product is accessed over the web and is designed for ease of use – you can get started as soon as you log in without need for formal training.

**Call (800) 672-4692** or visit **nsc.org/navigator** to get started today.

**Be safer. Be smarter. Be sure.**
