You may or may not know that in 2017, Safe Communities America will be celebrating our 10-year anniversary!

We would like to use this milestone as an opportunity to share the collective impact of this network. Therefore, we are collecting quantitative metrics on programs and trainings many of you implement in your communities.

The next two questions are our attempt to quantify each Safe Communities impact.

We understand this is not an exhaustive list, but we have attempted to outline programs most Safe Communities in the United States are implementing.

Please select the programs/initiatives your coalition has participated in for the past ten year years, or the length your coalition has been working together. *
