**Your business is only
as safe as your employees**

nsc.org | (800) 621-7619

We can help you protect your most valuable asset

Your employees are your business. If they're ill or injured, your whole operation suffers. That makes it critical to keep them safe.

What's more, it's a wise investment. Studies show a \$3–\$6 return for every \$1 invested in safety.* In fact, 95% of business executives surveyed report that workplace safety has a positive impact on their company's financial performance.*

Partner with the National Safety Council for the resources, support and information you need to make your organization safer and a great place to work. Working together, we can make it happen.

For more information, e-mail NSC at membershipinfo@nsc.org, call **(800) 621-7619**, or contact your local Chapter.

"NSC has been, and continues to be, a vital resource to professionals in the field who are exposed to the direct impact of safety on employees on a daily basis."

Kevin Koeppen

Compliance Manager, PBS Lumber Manufacturing LLC

* Liberty Mutual Group Executive Survey of Workplace Safety

safety solutions

Membership offers practical solutions to the safety challenges you face every day. Valuable information, resources and programs can help you and your employees build and support effective safety initiatives on the job, on the road, and in your homes and communities.

Partner with the world's leading safety and health organization

For nearly 100 years, the National Safety Council has focused on making people safer at work, on the road, at home and in our communities. We share best practices, knowledge, research and information to help our members find practical solutions to their safety challenges.

We have strategic alliances with key federal agencies including the Occupational Safety and Health Administration (OSHA), National Institute for Occupational Safety and Health (NIOSH), Mine Safety & Health Administration (MSHA) and Centers for Disease Control and Prevention (CDC). Our Emergency Alert Network, created in partnership with the CDC, delivers critical safety and health information to our member organizations during a crisis.

In short, you get the inside track on safety news and regulation, and we can communicate your needs back to these authorities. Trust the leader in safety for the resources you need to succeed.

NSC Safety Experts

Need more in-depth assistance? Contact the National Safety Council consultants. We have a team of full-time, seasoned Certified Safety Professionals available to evaluate and assess safety programs and safety management systems. Our consultants provide detailed feedback (report, action matrix, numerically scored assessment) on where the gaps are and how to proceed.

If you have a quick OSHA compliance question can use our "Ask the Expert" feature. Submit your questions, and our consultants will provide you with a response as soon as possible.

stay current

Industry Newsletters

Electronic newsletters focused on specific industries for all your employees.

Membership Advantage Newsletter

This quarterly, member-exclusive newsletter focuses on communicating the value of your membership and creating a sense of community among members.

News at nsc.org

- Updates on current issues, emergency preparedness, driver safety and more
- Online shopping for products and publications
- FREE demonstrations of online training programs
- Dates and locations for key training courses

Membership News Alert

We search through breaking industry news so you don't have to. Brought to you by the editors of *Safety+Health* magazine, you can find the most up-to-date safety and health information.

Safety+Health® Magazine

Available to all your employees at no extra fee (FOR U.S. RESIDENTS ONLY).

Mailed monthly, this magazine provides analysis of the latest news and trends affecting the occupational safety professional.

Topics covered include:

- Safety best practices
- New training tools
- Industry research and statistics
- Career outlooks
- Emergency preparedness

OSHA Up To Date® Newsletter

This monthly newsletter reports the latest modifications, interpretations, legal developments and proposed changes in occupational safety and health legislation, including discussions of standards and rulemaking.

Website: members.nsc.org

Traffic Safety® Newsletter

An authoritative source of news for every professional responsible for keeping our streets and highways safe. It covers key areas such as legislation, law enforcement, road/vehicle/driver conditions affecting traffic safety, engineering innovations, statistics and driver training.

Family Safety & Health® Magazine

Each quarterly issue of *Family Safety & Health* covers the latest safety, health and wellness information for the home, road and community.

Sign up for a **FREE** one-year subscription at nsc.org/hr (NSC® membership is not required).

Emergency Alert Network

Our members will be the first to receive critical health and safety information and recommendations from the Centers for Disease Control and Prevention.

As a result, you can get a head start on implementing your emergency plan, which will:

- Protect the health and safety of employees and customers
- Prevent or reduce the severity of the emergency's impact
- Assist in recovering more quickly from the situation

Knowledge Center

Turn to the NSC Knowledge Center for information on regulations and best practices, and to find out if your specific compliance questions have already been answered in an interpretation letter. We can also help you identify the most frequent injuries that occur in your industry.

Run by a fully staffed library, the Knowledge Center houses the most comprehensive safety and health materials collection and continually adds the latest information. Although you may not have the time, budget or space to buy and read safety publications, we do. We can run a targeted search to locate the best information for your particular need. And when your needs change, we can run another search.

Member-Exclusive Content

- Webinar schedule and archive
- Online Career Center — search and post job openings, or read articles on career advancement
- Online library catalog — searchable 24/7 and housing more than 169,000 safety documents
- Articles, posters and presentations
- Motivation & Recognition Awards Program criteria and applications

All of your employees can log in to access member-exclusive content.

member feedback

Here's what members are saying about the Emergency Alert Network:

“The network and the information is a valuable asset to my organization. It can be used to safeguard our employees, clients, customers and associates in times of emergency.”

member resources

Library Alerts

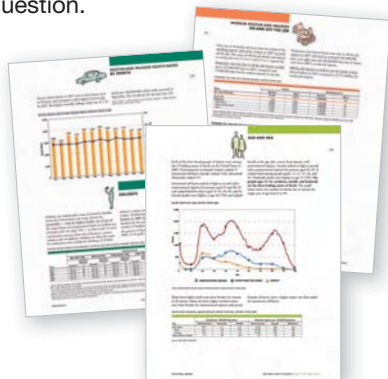

Receive notification on important materials recently added to our extensive collection. Alerts are segmented by workplace, traffic, and home and community.

Listservs

Industry professionals have a wealth of information, and we can help you connect with them for answers. Simply sign up to participate in the listservs that interest you. When you have a question, submit it to your listserv, or answer another member's question.

Injury Facts® CD-ROM

Injury Facts is a statistical summary of unintentional injury data in one concise package. Use this member benefit as you plan the direction for your safety programs. Improve the technical credibility of your reports and presentations by using the ready-made data tables, illustrations and articles.
