

FAQs on How the Program Works

Is the fundraising program just for high schools?

No. School districts, school organizations, community groups, clubs and other organizations can provide valuable, life-saving defensive driving instruction and raise funds without having to sell anything or ask supporters for donations.

How long of a commitment am I required to make?

No commitment is required. You can cancel the program at any time without incurring any penalties or cost. And everything you're owed, we will pay to you even after termination. There's nothing to lose and a whole lot to gain from the Alive at 25 Parent Program Online fundraising opportunity for your school or organization.

What is Alive at 25?

Alive at 25 is designed specifically for drivers between ages 15 and 24. It addresses the number one cause of death for drivers in this age group — motor vehicle crashes — and has been adopted by many states and courts for graduated licensing and traffic violator programs. Schools are also using the program to complement standard driver education courses or provide new direction for young drivers who incur traffic violations. By taking the course, young adults learn key communication skills for assertiveness and being a young leader behind the wheel.

What are the hidden fees? Program start-up costs?

There are no hidden fees or program costs. None whatsoever! Really.

Why are there no costs to the school or organization to sign up?

Because we are committed to saving young adult lives, we see no reason to charge for this program. Our goal is to reduce the number of driving-related injuries and deaths on our nation's streets and highway, including those for the most at-risk group: teens. It's our top priority at the National Safety Council, and we want it to be your highest priority too.

Who does all the recordkeeping and marketing of the program?

Professional Development Association, Inc., has been authorized by the National Safety Council to be the sole administrator for the fundraising program. That means PDA handles all the recordkeeping. We will help you with the marketing.

How often am I paid the fundraising money?

You'll receive a check at the end of each month, if your school or

when the cumulative total exceeds \$100. If after three months you do not exceed \$100, we will issue a check for the total you have so far. You always get paid, and as more and more parents sign up, you get paid monthly more often.

How do I get my school or organization started?

Call the National Safety Council at **800.621.7619** or send us your [contact information](#), and we will call you.
