

DRIVER IMPROVEMENT

Defensive Driving Course – 4 (DDC-4)

Instructor-led Classroom Course

Fast-paced program that's ideal for all employees

DDC-4 is a fast-paced, four-hour classroom program that also makes for an ideal refresher course. Focusing on the importance of attitude in accident prevention and avoidance as well as the good driving skills students already have, DDC-4 shows the consequences of poor choices made behind the wheel—and puts defensive driving into a personal context. No other driver improvement course is more widely used by businesses and industries, courts and government agencies, state departments, municipalities, driving schools and the military.

What you will learn:

- Superior strategies to prevent collisions and citations
- Coping strategies for dealing with road rage, impaired drivers, high-speed drivers and other dangers on the highway
- The know-how for evaluating and improving driving skills after mapping-out a personal skills inventory
- The serious consequences of fatigue, distracted driving, emotional impairments and other risk factors
- Why vehicle malfunction and poor maintenance contribute to collisions

Course description:

With this popular four-hour course, participants receive practical strategies to reduce collision-related injuries, fatalities and costly repairs. This course stresses the importance of attitude in crash prevention and reinforces good, sensible driving skills that participants already have. Most importantly, it clearly demonstrates the consequences of the poor choices drivers make behind the wheel. Available in both English and Spanish, this half-day course emphasizes the importance of keeping our roads safe.

Course materials:

Instructor Certification Package*:

- Fully-scripted Instructor Manual
- Participant Course Guide
- Teaching DDC Candidate Instructor Guide
- Universal Certification Card, Certificate of Completion and more

Other Required Instructor Teaching Materials:

- Two video sessions on DVD or VHS (Videos are leased and must be renewed annually)
- Instructor PowerPoint® presentation on CD, or Instructor Flip Chart
- Magnetic Traffic Intersection Kit (Includes traffic signs and shapes)

*Issued to Instructor Candidates at Instructor Development Course.

Who would benefit:

Experienced licensed drivers; companies who want a driver improvement course for their employees; and traffic violators required to take a driver improvement course by the court.
