

FIRST AID

Pediatric First Aid, CPR and AED Instructor-Led Classroom Course

This NSC program meets first aid and CPR training requirements in all 50 states.

Meets first aid and CPR training requirements in all states except California and Louisiana.

Taking the right steps to protect children

No one wants to see a child hurt — That's why we've adapted all of the topics from the National Safety Council Standard First Aid, Cardiopulmonary Resuscitation (CPR), and Automated External Defibrillator (AED) course to meet the special needs of infants and children.

What you'll learn

- Treatment of common childhood problems such as head bumps, lost teeth and objects swallowed or encased in the ears or nose
- Identifying and caring for childhood illnesses such as whooping cough, chickenpox, conjunctivitis and head lice
- Caring for children with disabilities

Course description

Focusing on injury prevention, our 8 1/2- to 9 1/2-hour pediatric program covers information on many childhood topics. From common childhood illnesses to child abuse and neglect, this program meets the latest CPR and emergency cardiovascular care guidelines while addressing the special needs of children.

Course materials

Instructor Resource Kit

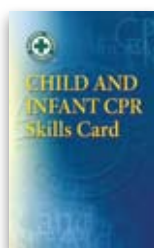

- 192-page Instructor Manual
- Instructor CD with PowerPoint® presentation
- Course DVD
- Student Workbook

Student Workbook

- 150 pages of full-color photos, illustrations and skills demonstrations
- Nationally recognized course completion cards

Basic Pediatric First Aid, CPR, and AED

This 76-page workbook offers the basics of our Pediatric First Aid, CPR, and AED program, covering the fundamentals of caring for childhood injuries and illnesses. Step-by-step photos reinforce skill development and retention. Nationally recognized course completion cards are included.

Child and Infant CPR Skills Card

Easy-to-follow, full-color, laminated card provides a quick, convenient emergency skills review. Includes a course completion card for participants taking an NSC pediatric course and looking for refresher training. Available without a completion card for use as an employee handout.

Topics Include:

- Recovery position
- CPR – infant (younger than 1)
- Choking
- AED – child (ages 1-8 or less than 55 pounds)
- CPR – child (ages 1-8)
- Preventing injuries
