Eliminating just one distraction could save a life.

Sometimes the smallest distractions can have the biggest consequences.

Just a few seconds of distracted driving could result in a serious collision or fatality. It can be something as simple as a quick peek at your cell phone or programming your music playlist. Whatever the situation, distracted driving is a major contributor to motor vehicle incidents and fatalities.

In April 2019, purchase 100 or more NSC Defensive Driving Online Course registrations and receive the same quantity of NSC Distracted Driving Online Course registrations FREE.
