

National Safety Council

Position/Policy Statement

Safety Education for Teacher Preparation Programs

The National Safety Council believes that the school setting (Pre K-12) holds one of the best promises for implementation of strategies to reduce unintentional injuries and property losses. It is imperative that individuals enrolled in teacher preparation programs develop competencies in teaching safety education.

This position statement reflects the opinions of the National Safety Council but not necessarily those of each member organization.

Approved by Governmental Relations Committee, October 27, 1996

Approved by Board of Directors, October 30, 1996
