State of COVID-19 Response and Future World of Work Summit

Presented By

SAFER
Safe Actions For Employee Returns

a National Safety Council initiative

December 9, 2020
9:00 a.m. - 3:30 p.m. CST

Sponsored by:
In the months since the world was turned on its head, experts at the National Safety Council and its member and partner organizations have not only been responding to the COVID-19 pandemic with guidance, tools and solutions – they have been carefully monitoring and understanding the implications of our collective efforts to keep Americans safe and healthy.

The State of COVID-19 Response and Future World of Work Summit, presented by SAFER at the National Safety Council, will focus on the implications of our national response to the COVID-19 pandemic today and in the future.

Aimed at helping businesses, policymakers and leaders take stock of where we stand and where we’re headed, the Summit will explore topics including the efficacy of states’ shelter-in-place orders, employers’ response to this century’s biggest threat to workplace safety and the future of world of work beyond the crisis.

Leading up to and during the event, NSC will release new reports addressing these topics and share insights and actionable data to help chart our course ahead.

The Summit will feature candid discussion with operations and safety leaders, government officials as well as workplace, medical, and mental health experts and influencers – all of whom will share compelling reflections and analysis of their experiences over the last nine months. More importantly, the Summit will offer solutions for working together to keep workplaces safer across the country.

A preliminary program is available below. This is the current list of speakers to date. More speakers will be announced.
9:00 a.m. - 9:10 a.m.  Welcome Remarks
Lorraine Martin  
President & CEO  
National Safety Council

As we settle in, NSC President and CEO Lorraine Martin will share how NSC has met the challenges of the past year, and how we aim to help safety and health professionals and leaders in the future.

9:10 a.m. - 9:40 a.m.  Reflections and Lessons Learned in Our Pandemic Year
Dr. Abdul El-Sayed  
Author, Healing Politics  
Former Public Health Commissioner of Detroit

To start our day in earnest, Dr. Abdul El-Sayed will share historical, political and social insight into how we got here, and what it means for our health: not only as people, but as a nation. Covering everything from superbugs to the loneliness epidemic and the opioid crisis, Dr. El-Sayed will offer a timely, troubling, yet ultimately hopeful look at the past, present and future of not only the pandemic, but public health and safety in America.

9:40 a.m. - 9:45 a.m.  Break

9:45 a.m. - 10:55 a.m.  The State of the States Insights and Discussion Panel
Our first topical session of the day will focus on the state-level response to COVID-19, covering a wide swath of themes from employer guidelines to testing and tracing to “echo” spikes in mental health, transportation and impairment.

In our insights section, NSC will deliver key findings from the State of Response report series. In our discussion panel, state business and public health leaders, alongside experts who have examined national response strategy, will unpack how we move forward.

Insights  
Tara Leystra  
State Government Affairs Manager  
National Safety Council

Discussion Panel  
Gene Barr  
Justin DeWitt  
President & CEO  
Chief of Staff  
PA Chamber of Business & Industry  
IL Dept. of Public Health

Mara Aspinall  
Professor of Practice, Arizona State University
10:55 a.m. - 11:05 a.m.  Break

11:05 a.m. - 12:15 p.m.  Employer Response Survey Insights and Discussion Panel
Our second topical session moves from state to employer-level response to the pandemic, which has clearly varied widely across the nation dependent on industry sector, risk profile and location.

In our insights section, NSC partners will deliver key findings from our National Employer Survey. In our discussion panel, executives and safety and crisis leaders will candidly share what’s worked, what hasn’t and the innovations they’ve made to address COVID-19 risk in their organizations.

VP and Chief Sustainability Officer
Dow

12:15 p.m. - 1:00 p.m.  Lunch and Relaxation
Enjoy relaxing music and conversation in our ongoing chat room, or simply catch up on family or work time.

1:00 p.m. - 1:30 p.m.  How Do We Prevent the Next Global Pandemic?
Dr. Jonathan Quick  Mara Aspinall
Managing Director,  Professor of Practice
Pandemic Response  Arizona State University
The Rockefeller Foundation

As we return from lunch, Dr. Jonathan (“Jono”) Quick will pose a question that has never been more compelling or relevant – how do we prevent the next global pandemic? In 2018, Dr. Quick quite literally wrote the book – *The End of Epidemics* – on this topic.
State of COVID-19 Response and Future World of Work Summit

following the 2014 Ebola outbreak. Analyzing global and local efforts to contain influenza, AIDS, SARS and Ebola, Dr. Quick will share his insights on the actions needed to end epidemics before they begin.

1:30 p.m. - 2:50 p.m. Future World of Work Insights and Discussion Panel
Our final topical session takes us from hindsight to foresight, examining how our world of work has changed and will continue to evolve in the short and long term.

In our insights section, NSC will deliver key findings from our Future World of Work study and highlight key issues such as psychological safety and technology. In our discussion panel, safety thought leaders and executives will share their vision for the new normal and how we all must adapt to meet emerging challenges.

Insights
Rachael Cooper
Senior Program Manager, Impairment & Emerging Issues National Safety Council
