

Don't fall victim to complacency

One worker's complacency is another worker's injury. Try these 5 simple tips to get engaged and stay safe on the job:

1

Kick off your next meeting with a safety talk

2

Lead an ergonomic stretch break during your next staff meeting

3

Watch out for hazards and report them immediately

4

Join a workplace safety committee to make improvements or suggest new ideas

5

Look at your tasks from a fresh perspective and ask yourself: if this was your first day, what would you do differently?
