“Safety is about life—it’s personal. When you go beyond the risks or the steps it takes to avoid them, you feel the result: being healthy and unharmed at work, getting home safe and being with those you love; having your co-workers stay safe at work — without being impaired or addicted, or being injured...or worse.”

– Lorraine Martin
President & CEO, National Safety Council

Safety observances

NSC Member Appreciation Month
National Radon Action Month
National Law Enforcement Appreciation Day: Jan. 9
