FIRE SAFETY TIPS

TIPS FOR FIRE SAFETY AT YOUR ORGANIZATION

Prevent
Take steps to reduce the chance of a fire occurring. Make sure you:
- Store flammable liquids and combustible materials safely
- Post no smoking signs in regulated areas
- Turn off engines and motors during refueling

Practice
Develop emergency action plans that describe the routes for workers to use.
- Be available for employee review
- Account for all evacuated employees
- Include a way to evacuate the disabled

Plan
Formalize safety training so employees know what to do in case of a fire. Be sure to cover:
- Potential fire hazards
- Evacuation routes
- Firefighting equipment that's available
