Barbara Caracci, Director of Program Development and Training
First Aid Programs, National Safety Council
1121 Spring Lake Drive
Itasca, IL 60143-3201

Dear Barbara Caracci:

I along with my Professional Development staff have reviewed the National Safety Council training for First Aid, CPR, and AED courses. We find them approved and they can be utilized in Utah as a means for pre-hospital providers, that we certify, to receive training or continuing medical education and will credit the hours towards their certification or recertification.

Sincerely,

A handwritten signature in black ink, appearing to read "Paul R. Patrick".

Paul R. Patrick, Deputy Director, Family Health and Preparedness
Director, Emergency Medical Services and Preparedness
