

Be ready when an emergency strikes

Emergency: a sudden, urgent, unexpected occurrence that requires immediate action. **Do you know what to do?**

Common emergencies:

- Medical issues
- Fires or explosions
- Chemical or oil spills
- Radiation or toxic gas release
- Severe weather
- Workplace violence, bomb threats

You should know:

- How to report an emergency
- How to respond when you hear the alarm
- When to shelter in place and location of the nearest safe refuge
- When to evacuate, location of the nearest emergency exit, where to rally outside

Ask your supervisor for more information and training if you need it.

Who do you call?

Safety leader: _____ ext. _____

Safety responders: _____ ext. _____

_____ ext. _____

_____ ext. _____

First aid responders: _____ ext. _____

_____ ext. _____

_____ ext. _____

Continuous improvement is essential

Education

Learn about new and changed plans

Training

Practice in drills or simulations

Recovery

Returning to normal operations

Improvement

Use training to pinpoint enhancements

Adjustment

Add enhancements to the plans
