

## DDC 8/6, 9TH EDITION

### NSC Driver Safety Training

## The most compelling program for keeping drivers safe on the road

### Course description

DDC 8/6 is a highly interactive instructor-led classroom course with the goal of providing drivers with practical knowledge and techniques to avoid collisions and violations. With a defensive driving self-assessment risk survey and leading safety issues, this course helps drivers choose safe, responsible and lawful driving behaviors. Available in both English and Spanish, **this eight-hour course can be reduced to six hours** to address your organization's specific training requirements.

### What participants will learn

Participants will acquire the knowledge and techniques to recognize potential hazards and avoid collisions and violations and why choosing safe, responsible and lawful driving behaviors and habits make personal and financial sense. They will understand that the right attitude can prevent collisions and poor-decision making as well as how to drive defensively in unpredictable conditions.

### Course features:

- Videos with real-life driver simulations, hazard recognition and vehicle maintenance checkpoints
- Interpersonal activities, case studies and small group discussions
- Defensive Driving Self-Assessment Risk Survey allows each participant to evaluate their own attitudes and behaviors when they are driving
- Critical discussions on distracted driving and the dangers of cell phone use
- Instructor multimedia presentation with animated graphics, traffic simulations and embedded video

### DDC SPOTLIGHT

OmniTrans is the primary public transit provider for the San Bernardino Valley in Southern California transporting approximately 16 million passengers each year. Every single OmniTrans coach operator has gone through DDC – it's

been a standard portion of our Student Coach Operator driver safety training and refresher training for decades.

**DDC sets a high standard in driver safety training and is a major reason our preventable accident rate has decreased from 1.28 preventable accidents per 100,000 miles to an all-time low of .74 preventable accidents per 100,000 miles.**

*"National Safety Council Defensive Driving Courses continues to play an active role in this significant reduction. OmniTrans will continue to utilize DDC; and I heartily endorse other companies to make DDC part of their driver safety training."*

Don J. Frazier, Fleet Safety & Training Supervisor

## DDC 8/6 Instructor Certification and Course Materials

### Instructor Certification is required to teach DDC 8/6

Become certified to teach DDC 8/6 through the NSC eLearning Instructor Certification Training. The Program uses a modular approach providing interactive elements and exercises to engage participants including real-life instructor experiences, videos, animations, games, and knowledge checks. The Course provides the principles about NSC Defensive Driving Courses and DDC safe driving techniques, proven-effective facilitation methods, and the instructional standards and training skills to deliver a successful driver improvement program. The Candidate Instructor will learn the DDC 8/6 Course curriculum in detail during the eLearning Instructor Certification Program. **The DDC 8/6 eLearning Instructor Certification Course will take approximately 9 hours to complete.**

For more information how to become a Certified DDC Instructor, call **(800) 621-7619** or go to **[nsc.org/eLearning](http://nsc.org/eLearning)**

Request more information at **[nsc.org/eLearning-INFO](http://nsc.org/eLearning-INFO)**

### DDC 8/6 Course Materials

National Safety Council Defensive Driving Courses deliver standardized, consistent curriculum ensuring uniformity in content management, instructor presentation and facilitation techniques. Our Programs are research-driven and designed, written and reviewed by leading safety experts, driver education professionals, statisticians and data analysts and an international advisory committee.

#### Instructor Resource Kit

The DDC 8/6 Instructor Resource Kit includes the Training Materials necessary to teach this Course. Each Candidate Instructor will need an Instructor Resource Kit to complete the eLearning Instructor Certification Course. Your Instructor Resource Kit includes:

- Instructor Manual
- Multimedia and Instructor Presentation — videos, animated graphics and illustrations, hazard recognition scenarios, real-life driving situations and interactive group exercises
- Student Course Guide
- Certification of Completion
- Reference Materials and Administrative Guidelines
- First Year of Instructor Credentials\*

**Course Guide and Certificate of Completion – One course guide required per student/course participant.**

Learn more: **[nsc.org/DDC-Instructor-Courses](http://nsc.org/DDC-Instructor-Courses)** • **(800) 621-7619**

Request for more: **[nsc.org/DDC-INFO](http://nsc.org/DDC-INFO)**

*\*Your first year of DDC Instructor Credential is included when you complete the eLearning Instructor Certification Course. Instructor recertification is billed annually after that.*
