

NSC First Aid 9th Edition Updates

- NSC is refreshing its First Aid training portfolio with the release of the 9th Edition curriculum, designed to better reflect today's workplace risks and evidence-based practices.
- The update will launch with our **First Aid CPR AED Workplace** courses, closely followed by our **First Aid CPR AED: Adult Child Infant** (f.k.a. **Pediatric First Aid, CPR & AED**), **Basic Life Support, Bloodborne and Airborne Pathogens**, and **Advanced First Aid and Basic Life Support**. Updated materials will include Instructor Resource Kits, Participant Workbooks and new or refreshed eLearning offerings.
- Key enhancements include new workplace-focused videos and scenarios, along with alignment to ILCOR 2025 recommendations and OSHA guidance, ensuring instructors are delivering training grounded in current science and regulatory expectations.

9th Ed. Instructor Action Required

- Beginning in August 2026, NSC First Aid Instructors must purchase a digital **Instructor Transition Kit** for the courses they teach which includes:
 - Course specific Transition eLearning module
 - 9th Edition Digital Instructor Manual
 - 9th Edition Digital Participant Workbook(s)
 - 9th Edition multimedia content including all course videos and files needed to conduct courses
- The Transition eLearning Module must be completed to purchase the updated participant workbooks and to be eligible for renewal in 2027.
- Current First Aid, CPR & AED, 8th Edition Instructors can transition to: **Workplace First Aid, CPR & AED** or **First Aid, CPR & AED: Adult, Child & Infant** (Community Course).
- Current Pediatric First Aid, CPR & AED, 8th Edition Instructors will transition to: **First Aid, CPR & AED: Adult, Child & Infant** (Community Course).

NOTE: New NSC First Aid 8th instructors) who join between April 1 and August 31 will automatically receive a free 9th edition transition kit when they are available. This includes instructors who crossover to teach with NSC during that time frame.
