About the National Safety Council

The National Safety Council saves lives by preventing injuries and deaths at work, in homes and communities, and on the roads through leadership, research, education and advocacy.

The National Safety Council is a nonprofit organization founded in 1913 and chartered by the United States Congress in 1953. Today, the NSC membership list includes 8.5 million employees at more than 54,000 organizations of all sizes and types worldwide. NSC is headquartered in the United States near Chicago, Illinois.

Strategic priorities

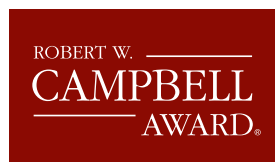

At NSC, our strategic priorities focus on environmental, safety and health issues, defensive driving and first aid. Our priorities are based on scientific research that helps us define and understand issues and trends in unintentional injuries and injury-deaths, and develop programs to address these trends and help save lives.
