Safe ways to cross

DRIVEWAYS & PARKING LOTS

1. Watch for potholes, cracks and ice in the winter
2. Ask for an escort to your car if you feel uncomfortable walking in the dark
3. Use clearly marked walkways so drivers see you
4. Have your keys ready when you approach your vehicle
5. Don’t use your cell phone while walking in the parking lot
6. Park near other cars and under lights
7. When driving, always yield to pedestrians and other road users.

Drive no faster than 10 mph in parking lots
