

## Defensive Driving Online Modules

These ultra-convenient **20-minute single-topic training sessions** provide the flexibility to train your employees on individual subjects based on specific driving behaviors, incident rate factors, and training policies. Or, choose the entire 9-session Module Library for your employees as a comprehensive driver safety training program.

With National Safety Council Defensive Driving Online Modules, you can create an interactive and engaging training experience for your employees with ease.

### Course objectives

Each training session teaches defensive driving techniques and collision prevention strategies, using hazard recognition scenarios and real-life driving situations to help drivers recognize their own personal driving tendencies and attitudes, reduce the chance of motor vehicle crashes and traffic violations and change risky driving habits.

With the extraordinary flexibility of these topic-specific online modules, organizations can design a program to accommodate corporate guidelines, employee schedules and post-incident occurrences and refresher training.

### Course highlights

Defensive Driving Online Modules offer state-of-the-art technology with an emphasis on scenario-based training, hazard risk assessments, knowledge checks, and session reviews. As your corporate training needs, or the needs of your employees change, you can easily adjust and tailor training. Other course highlights include:

- ▶ Full-course narration with closed captioning for the hearing impaired
- ▶ High definition videos, 3-D animation, graphic illustrations and interactive gaming exercises
- ▶ Easy to follow navigation with a convenient bookmark feature
- ▶ Internet connection-speed technology and universal device compatibility
- ▶ Printable Certificates of Completion

# Defensive Driving Online Modules

For a detailed course overview of NSC Defensive Driving Online Modules, go to [nsc.org/Online-Modules-Overview](http://nsc.org/Online-Modules-Overview)

## The course covers key topics and issues including:

- Speed Management**—Provides drivers the knowledge to use traffic lanes properly and safe-driving techniques to prevent lane-related collisions (44100-1601)
- Intersections**—Analyzes the reasons why drivers collide at intersections and offers defensive driving procedures to avoid these deadly crashes (44100-1602)
- Avoiding Impaired Driving**—Teaches practical, common sense techniques to avoid and respond to reckless impaired driving on our highways (44100-1603)
- Lane Management**—Provides the knowledge to manage driving speed in the most common driving conditions and situations (44100-1604)
- Weather and Road Conditions**—Helps prepare drivers for the worst driving conditions by teaching proper defensive driving techniques in real-life scenarios (44100-1605)
- Avoiding Fatigued Driving**—Learn the warning signs of drowsy driving and how to change sleeping habits and decisions to help ensure driver safety (44100-1606)
- Backing and Parking Lot Strategies**—Offers safe driving techniques to help drivers avoid preventable collisions in multiple backing and parking conditions and situations (44100-1607)
- Avoiding Aggressive Driving**—Learn how to respond to and avoid aggressive drivers and keep from becoming an aggressive driver in the most stressful driving situations (44100-1608)
- Avoiding Fixed Objects**—For public utility and service industry vehicles. Identifies why drivers collide with fixed objects, and offers safety practices and driving techniques that can eliminate these preventable collisions (44100-1613)

## Establish your very own Online Driver Training Portal

Purchase 100 or more registrations and NSC will customize your training site with a company logo, employee welcome message, and safety policy. Site creation, web hosting, and customer and technical support are included.

With your personalized training portal, an administrator at your organization can manage and track registrations, participant progress and test scores, and much more. You have access to:

- ▶ Tailored reporting capabilities
- ▶ Enhanced tracking components
- ▶ Advanced search functions
- ▶ Customized registration options
- ▶ Detailed accounting and business function features
- ▶ Immediate printing of Certificates of Completion

Product #	Quantity	Cost per registration*
<b>Individual Modules</b> (Product # above)	1-49	\$9.95
	50-99	9.45
	100-249	8.95
	250-499	8.45
	500-999	7.45
