A safer workplace is in sight

Be aware of your surroundings and learn to see safety hazards. It’s an easy yet effective way to reduce injuries.

The danger: __________________________

Cabinet drawers left open
Heavy objects stored precariously on high shelves
Forklifts working in warehouse aisles
High stacks of heavy boxes

What to do: __________________________

Open one drawer at a time and close it when not in use
Store heavy objects close to the floor & out of walkways
Be aware and make yourself visible to the driver
Wear the proper personal equipment such as steel toe shoes to help avoid injury

229,410

The number of injuries with days away from work in 2019 due to contact with an object.
