United States and Canadian Brothers and Sisters of the Labor Division

The NSC Labor Division proudly recognizes the valuable contributions of its members across North America. With representation from both the United States and Canada, our division reflects a shared commitment to advancing workplace safety, fostering collaboration, and driving meaningful change across borders.

Land Acknowledgement, City of Denver, Colorado

- The National Safety Council Labor Division honors and acknowledges that the land on which we work is the traditional territory of the Ute, Cheyenne, and Arapaho Peoples.
- May we work here in a good way.
- We also recognize the 48 contemporary tribal nations that are historically tied to the lands that make up the state of Colorado.
- We honor Elders past, present, and future, and those who have stewarded this land throughout generations. We also recognize that government, academic and cultural institutions were founded upon and continue to enact exclusions and erasures of Indigenous Peoples.
- May this acknowledgement demonstrate a commitment to working to dismantle ongoing legacies of oppression and inequities and recognize the current and future contributions of Indigenous communities in Denver.

Thank you to our meeting sponsors!

Lost Workers

We honor and remember the workers lost from unions across North America, whose dedication continues to inspire our shared commitment to safety and solidarity.

Objective of the Labor Division

The Labor Division of the National Safety Council is a place where representatives of the various branches of Labor can assemble solely to discuss and share information concerning the safety and health of those we represent. To better carry out these objectives, any discussion of inter-union or intra-union matters, other than safety and health, will be ruled out of order.
