

National Safety Council

Position/Policy Statement

Credit Policy For State and Local Safety Organizations

Conference members with valid past due balances to NSC of more than 60 days past due and with no prior repayment agreement should not have any further credit privileges.

Councils not paying their valid past due balances or making satisfactory arrangements for such payment, should have their Service Agreement contract suspended.

Information as to aging and amounts of valid past due balances should be transmitted to the Appraisal Committee for guidance during the normal appraisal process.

Our Conference also suggests that consideration be given to having the Service Agreement and Appraisal Accreditation dates coincide with the understanding that any modifications to the Service Agreement must be made to all Service Agreements uniformly and simultaneously.

This position statement reflects the opinions of the National Safety Council but not necessarily those of each member organization.

Submitted by the Conference of State and Local Safety Organizations

Approved by the Finance and Executive Committees, October 17, 1977

Approved by the Board of Directors, October 18, 1977
